

On Time

Baldanzi & Novelli

Technical features

Armchair with seat and lateral sides that can be folded up over the backrest reducing its size to 20 cm when not in use.

Seat and backrest

Backrest and sides with internal structure in steel and flame-retardant, cold-moulded polyurethane foam padding, CertiPUR® certified.

Seat with high resistance elastic belts.

Backrest fitted with harmonic steel springs that make its upper side more flexible and comfortable, and accompany every movement of the back through an adjustable inclination.

Coverings in fabric, faux-leather or leather.

Sides

Folding sides over the backrest without visible hinges, steel internal structure and flame-retardant, cold-moulded crushproof expanded polyurethane foam padding CertiPUR® certified.

Upper and lower part of the side in black technopolymer. On request, the sides can be made fully clad and equipped with a steel hook and hinge system. Coverings in fabric, faux-leather or leather.

Sides available with fixed feet (in nylon, galvanized iron or with suction glides) or on castors (black swivel castors). Right sides can be equipped with a tip-up writing tablet with anti-panic movement, easily applicable to the side with extractable interlocking system (no screws used), to facilitate storage operations. Writing tablet in black stratified HPL.

Also available in the innovative version with an oversized anti-panic writing tablet - 30 x 64 cm - equipped with adjustment of the distance from the user (Patent Pending). The tablet is installed on a self-lubricating lateral slide to allow optimal adjustment of the working position and facilitate getting seated or getting up from the seat even when the tablet is occupied by work tools such as laptops, telephones or writing material. The tablet, which can be flipped-up with an anti-panic movement, is equipped with a braked point rotation to prevent it from inadvertently flipping up during a normal user exit, allowing the tools being used on the desk to remain in place.

Accessories

Tip-up writing tablet with anti-panic movement with extractable interlocking system, to facilitate storage operations. Writing surface in black HPL.

Nylon connecting hooks. Folding under-seat basket.

Oversized writing tablet - 30 x 64 cm - equipped with adjustment of the distance from the user (Patent Pending).

Transport dolly for stacked seats.

Tested according to European standards
